

Meetings on your calendar, billed only when they happen.

Our reps work your market by phone and email and write the bookings straight into your CRM.

WHAT YOU GET

Bookings direct to your CRM. The moment they exist. Your team sees meetings appear on their own calendar and pipeline in real time, no handoff files, no lag.

Context on every meeting. Who the prospect is, what was said, why they took it.

Confirmations handled. Reminders and reschedule chasing are ours.

WHAT THE REPORT SHOWS

Booked and held, both columns visible, only held celebrated. Your own CRM is the shared source of truth, so there is never a your-numbers-versus-ours conversation.

COUNTING AND BILLING

Meetings count when they are held, never when they are booked, and we only charge when they show up. A no-show we chase, reschedule and hold bills once, as one held meeting.

PRICING

A monthly contract, scoped on the audit call. Billing counts held meetings only.

Quoted after the free pipeline audit. The audit is free, the findings are yours in writing either way, and there is a quote at the end with no obligation to take it.

WHAT WE DO NOT PROMISE

Show rates, weekly volume, or the outcome of the meeting itself. A held conversation, not a deal.

HOW IT STARTS

With the free pipeline audit: send us what you run today, keep the findings in writing either way.
