

A dedicated international rep, the same honest counting.

The same full-time, one-client motion at an international price point.

WHAT YOU GET

One team, one client. A full-time international rep on your account and nothing else.

Criteria in writing. Agreed on the audit call before dialing starts.

Readable call logs. Timestamped, yours to inspect.

Meetings held. On your calendar, with context.

WHAT THE REPORT SHOWS

Dials, conversations, dispositions, SQLs against the written definition, meetings held. Counted, never estimated.

PRICING

A monthly seat, the more economical of the two rep seats.

Quoted after the free pipeline audit. The audit is free, the findings are yours in writing either way, and there is a quote at the end with no obligation to take it.

WHAT WE DO NOT PROMISE

Meeting quotas or SQL counts. The motion, the logs, and counting you can trust.

HOW IT STARTS

With the free pipeline audit: send us what you run today, keep the findings in writing either way.
