

A full-time US rep who works only your account.

Dialing, qualifying and booking under your name, with call logs you can read.

WHAT YOU GET

One team, one client. Your rep works your account and nothing else, so activity numbers are numbers, not allocations.

Criteria in writing. Qualification agreed before dialing starts, and it does not move.

Readable call logs. Timestamped, yours to inspect. It makes the motion un-fakeable.

Meetings held. On your calendar, with context.

WHAT THE REPORT SHOWS

Dials, conversations, dispositions, SQLs against the written definition, meetings held. If you want to know how many dials went out on Tuesday, that is a number you can look up.

PRICING

A monthly seat.

Quoted after the free pipeline audit. The audit is free, the findings are yours in writing either way, and there is a quote at the end with no obligation to take it.

WHAT WE DO NOT PROMISE

Meeting quotas or SQL counts. The motion, the logs, and honest counting.

An international seat runs the same one-client motion at a more economical price point.

HOW IT STARTS

With the free pipeline audit: send us what you run today, keep the findings in writing either way.
