

Lists your team can work the day they arrive.

Named contacts matching the profile you set, every record through the full gate before it reaches your file.

WHAT YOU GET

Your profile, not ours. Titles, seniority, size and vertical are your call: owners, operators, practitioners or whole committees.

Every record through the full gate. A real person, a title we could see, a mailbox that answered a live check, an in-band US company, and the date each check ran.

Never guessed. No visible title means no record, and a field we could not confirm arrives blank rather than filled.

Delivered your way. CSV on your schedule, loaded into your CRM, or handed to a dial list.

WHAT THE REPORT SHOWS

The delivery manifest itself: rows, check dates, field coverage. No data means no line.

WHAT WE DO NOT PROMISE

Replies. Records are verified as of their check date, and the check date ships with the record.

PRICING PER RECORD

Second number is phone-enriched.

\$0.35 up to 1,000 records, or \$0.50 with a confirmed phone.

\$0.15 1,001 to 5,000 records, or \$0.25 with a confirmed phone.

\$0.07 past 5,000 records, or \$0.12 with a confirmed phone.

\$250 monthly minimum on standing orders. A record that bounces inside 30 days is replaced free.

Ask on the audit call and we will send a sample from the current book in your vertical. Run it through whatever checker you trust.

HOW IT STARTS

With the free pipeline audit: send us what you run today, keep the findings in writing either way.
